

**Monitoring Violations Annual Notice**  
**Important Information about your drinking water**  
**Monitoring Requirements Not Met for:**  
**Springlake-Earth ISD**

Our system failed to collect every required coliform sample. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we did (are doing) to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether our drinking water meets health standards. During the month of April of 2025 our testing for coliform bacteria did not get returned to TCEQ, and therefore we cannot be sure of the quality of your drinking water during this time.

**What Should I do?**

There is nothing you need to do at this time. You may continue to drink the water. If a situation arises where the water is no longer safe to drink, we are required to notify you within 24 hours.

**What is being done?**

We have determined that the sample for coliform was collected for the month of April 2025, but we have not determined why this data was not transmitted to TCEQ. We will investigate the cause of this breakdown in communication and correct it.

For more information, please contact Denver Crum at (806)257-3310.

This notice is being sent to you by Springlake-Earth ISD Public Water System ID# TX1400012

Date Distributed; June 17, 2025

**Lead Consumer Notice NTNC TCEQ Form 20680b**

Non Transient Non Community Public Water Systems

Texas Commission on Environmental Quality

PWS ID #: TX 1400012 DATE: 9/30/2025

PWS NAME: Springlake-Earth ISD

This public water supply system is required to periodically collect tap water samples to determine the lead levels in the system. This building was selected for the monitoring as part of our system's sampling plan. This notice is provided to you with the analytical results of the tap water sample collected at the following sample sites:

Sample Site (Sink)	Collection Date	Analytical Result mg/L
1. Superintendent's Office	9/23/2025	0.152 mg/L
2. Elementary Lounge	9/23/2025	0.00749 mg/L
3. House 1561 FM 2901	9/23/2025	0.138 mg/L
4. House 1551 FM 2901	9/23/2025	0.125 mg/L
5. Cafeteria Washroom N	9/23/2025	0.00200 mg/L
6. Cafeteria Washroom S #1	9/23/2025	0.00200 mg/L
7. Cafeteria Washroom S #2	9/23/2025	0.00200 mg/L
8. Cafeteria Kitchen West Wall (left)	9/23/2025	0.00200 mg/L
9. Cafeteria Kitchen West Wall (right)	9/23/2025	0.00200 mg/L
10. Cafeteria Kitchen North Wall	9/23/2025	0.00200 mg/L

**Definitions:**

**Action Level (AL):** The action level is a concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a public water system must follow. The lead action level is 0.015 mg/L. **Maximum contaminant level goal (MCLG):** The level of a contaminant in drinking water below which there is no expected health risk. MCLGs allow a margin of safety. The MCLG for lead is 0.

**What are the health effects of lead and how can I reduce my exposure?**

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. SPRINGLAKE-EARTH ISD is responsible for providing drinking water that meets all federal and state standards but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap until noticeably colder before using the water and using only cold water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at EPA Safe water for Lead. When replacing your bathroom or kitchen faucet, consider a "lead-free" faucet that meets NSF/ANSI Standard 61 Annex G, which is less than 0.25% lead by weight.

**Who can I contact at my water system for more information?**

Phone number at our public water supply system: Superintendent Office - 806-257-3310

E-mail address at our public water supply system: [jvaughn@springlake-earth.org](mailto:jvaughn@springlake-earth.org)

**Lead Consumer Notice Certification Form 20680b**

PWS ID #: TX 1400012

PWS NAME: Springlake- Earth ISD

Monitoring Period to which the notice applies: June 1-September 30, 2025

Date(s) results were received from laboratory: 09/30/2025

Date(s) results were provided to customers: 05/01/2026

The water system named above hereby certifies that its lead consumer notice has been provided to each person it serves at the specific sampling site from which the sample was tested. The water system also certifies that these results and the following information were provided to such persons within 30 days of receiving the test results from the laboratory:

- ✓ Individual tap results from lead tap water monitoring carried out under the requirements of 30 TAC §290.117(j).
- ✓ An explanation of the health effects of lead.
- ✓ Steps that consumers can take to reduce exposure to lead in drinking water.
- ✓ Contact Information for our water utility.
- ✓ The maximum contaminant level goals and action levels for lead, and the definitions of these two terms.
